# Looking back over the year

Last year's aim	Our progress
To form an ESG sub-group looking specifically at Governance.	We have an ESG Committee that meet monthly, and a Governance Sub-Group. The Committee discusses key ESG topics. Progress against KPI's is reported upwards to the Board on a quarterly basis.
Continue to train all of our people on key topics.	We have a Learning Management System and all our people receive Code of Conduct training. This training includes interactive modern slavery and human trafficking modules. The completion of these modules is mandatory.
To conduct a modern slavery and human trafficking risk assessment.	We have conducted a risk assessment to identify any high-risk areas within our global supply chain.
To expand our supplier due diligence process by ensuring that questions are issued to all suppliers, and consider additional questions for those suppliers who operate in the higher-risk areas.	We have updated our supplier qualification questionnaire, which includes a specific question about our supplier's modern slavery commitments.

## Future Activities:

- Continue to train all of our people on key topics related to modern slavery and human trafficking.
- Further promote our Modern Slavery & Human Trafficking Commitments on our website by sharing our Supplier Code of Conduct publicly.

The Values which underpin that success stem instinctively from the culture we seek to sustain. Everything we do is tested against our Values, and our people are encouraged to apply them every day: they are the stewards of our brand, our reputation, our heritage, our ambitions.
